Hi <<First Name>>,

Live Inspired Reader, Thanks for joining me on this venture to live a better, happier, more inspired life!!

Happy Monday to you!

I'm feeling extra excited today. I met a milestone and I'm just a tad bit excited about it.

I want to remind you of a few well-known concepts that I use often in my life and business.

1. When we want different, we must DO different.
2. If we keep doing what we've always done, we will get what we've always gotten.
3. Success in life and business can be yours, if you take the appropriate actions.
4. Become consistent and prolific, which means keep showing up and keep doing the thing often.
5. You will win if you do not quit.

Do you have something specific you want to accomplish?

Hit reply and write me back; share with me. I'd love to either cheer you on or celebrate the success with you.

[I wrote about this milestone. You're welcome to check out the details.](#)

Live Inspired,

*Yvette Ray*
