Hi <<First Name>>,

Thanks for being a Live Inspired Reader and for joining me on this venture to live a better, happier, more inspired life!!

How exciting, it's another NEW YEAR!

So...Happy New Year to you and all that you love.

With this new year, as has been the case these last few years, I choose to share with you my focus word for the next 12 months.

It's **GROWTH**.

I've put in a significant amount of time growing my business. And made a few detours along the way. As with many businesses, I've changed directions a of couple times.

What has not changed is that

1. My writing is from a Christian perspective.
2. My writing helps my adult children grow their businesses, so they're my clients.
3. My writing is to help others grow in life and business.
4. My two websites allow me to focus on different perspectives, www.inspiredeagle50.com and www.empoweringwomenwinners.com.

What has changed is

1. My spiritual life has propelled even further.
2. I married a wonderful man.
3. My business is growing from several aspects; both wide and deep.

Over this next year, I have more pretty big goals. I won't share them in detail today.

But I will say, stay tuned and stay focused over here. You may find that you'll experience some exponential growth along with me.

Let's go higher, deeper, and wider together.

Live Inspired,

Yvette Ray

P.S. What are you working on over the next twelve months? Send me an email. I would love to hear from you. And yes, I respond to every email or social media contact.

P.P.S. My sponsor for this e-News letter is Taneka Rubin. She's an amazing daughter, author, former pro basketball player overseas, assistant coach, and youth mentor. I'm thrilled to offer you access to her book *Winners Win*.

In it Taneka shares how she progressed from lost to found in several ways on her path to living the life she dreamed of from childhood. [Get a copy on her website.](#)
